

SIMPSONS MALT

The home of good malt

PRODUCT RANGE

Simpson's Malts are only produced from pure, certified seeds of the finest UK two-row barley.

Renowned for its taste and flavour – and consistently high quality – Simpsons Malt is sought by the world's best brewers and distillers to craft the very finest beers and whiskies.

A fifth-generation family business, Simpsons Malt is the largest independent maltster in the UK, with a capacity of over 300,000 tonnes across two maltings.

Simpsons Malt buys, controls and stores 100% of each year's annual barley requirement in quality assured stores to guarantee supplies of the finest grain.

In Northumberland, the Berwick-upon-Tweed maltings is home to Simpson Malt's head office, central laboratory and agricultural trading division. McCreath, Simpson & Prentice (MSP).

MSP procures over 300,000 tonnes of barley each year from farming partners across England and Scotland. Each farmer's crop is fully traceable, guaranteeing the provenance of each malt from grain to glass.

In Norfolk, the Tivetshall maltings is home to six roasting drums and sees the production of our speciality-roasted malts.

With a focus on continual investment, Simpsons Malt employs the latest developments in both seed and state-of-the-art plant technology. This continued innovation and drive to improve processes ensures the consistent production of world-class malts.

“From the barley we source, to the malt we produce, we care as much now as we did in 1862.”

Simon Simpson OBE, Chairman

**Over 150 years, 5 generations...
1 home of good malt**

Distilling Malt	1.7 - 3.4	2 - 4	4.5%	The main ingredient for whisky production.
Finest Distilling Golden Promise®	1.7 - 3.4	2 - 4	4.5%	The principal ingredient for whisky production. This amazing heritage barley was specifically chosen for taste and flavours in beer and whisky.
Hi DP	1.7 - 2.5	2 - 4	6%	Used in grain distilling
Peated Malt	1.7 - 2.5	2 - 3	5%	Ingredient for providing the essential peat flavour in whisky production. Heavy/medium or light peating levels.
Finest Golden Promise® Peated Malt	1.7 - 2.5	2 - 3	5%	Ingredient for providing the essential peat flavour in whisky production using Golden Promise® . Heavy/medium or light peating levels.
HIGHLY KILNED MALTS - produced on a conventional kiln				
Vienna Malt	4.2 - 8.4	5 - 10	3.5%	Enhances colour, flavour and aroma.
Munich Malt	15 - 18.5	18 - 22	3.5%	Contributes rich malty flavour and golden hues when used at 5-15%.
Imperial Malt	34 - 42	40 - 50	3.5%	Enhances depth of colour, flavour and aroma.
Aromatic Malt	42 - 59	50 - 70	5%	Flavour reminiscent of raisins. Could be used for body in low ABV bitters. Good ph balancer.
CRYSTAL MALTS - Malts in which the sugars have been caramelised				
Caramalt	25 - 35	30 - 42	5%	Lager colour and flavour adjustment.
Premium English Caramalt	45 - 55	54 - 66	5%	Top of the range cara for colour and flavour adjustment. Used in light coloured beers. Ultimate malty flavour without the burnt characteristics of a higher colour crystal. Tastes great!
Crystal Light	80 - 95	95 - 113	5%	Sweet, Caramel, Toffee flavours. Contributes to golden hues.
NEW Crystal T50™	105-117	126-140	5%	The secret is in the name, Target 50! Each batch targets 50 Lovi col (131EBC) the spec is exceptionally tight so that we produce the consistency the customer requires. A fantastic Crystal that just crunches in the mouth offering great colour & delicate malty flavours to beers.
Crystal Medium	140 - 160	167 - 190	5%	Ale colour and flavour adjustment, tailored to requirement.
Crystal Dark	210 - 240	250 - 285	5%	Ale colour and flavour adjustment, tailored to requirement.
Crystal Extra Dark	380 - 420	450 - 500	5%	Ale colour and flavour adjustment, tailored to requirement.
NEW Simpsons DRC®	235 - 270	280 - 320	5%	DRC® gives a dark caramel taste and imparts raisin like flavours to beers. It is a great substitute to darker roasted malts when astringent bitterness is not desired.
NEW Heritage Crystal Malt	140 - 160	167 - 190	5%	A fantastic Crystal using heritage Maris Otter barley.
ROASTED MALTS AND GRAINS				
Amber Malt	45 - 60	54 - 71	2.5%	A traditional malt for dry biscuity finishes to ales.
Brown Malt	360 - 500	430 - 600	4%	'Coffee' notes for stouts and porters. Smooth mouth-feel.
Chocolate Malt	900 - 1100	1067 - 1300	3%	Roasted malts for 'winter warmer' styles. Rich, dark colours with burnt toast dryness.
Black Malt	1200 - 1500	1433 - 1900	3%	
Roasted Barley	1100 - 1600	1300 - 1900	3.5%	A typical ingredient of Irish dry stouts.
EXTRA SPECIAL MALTS & GRAINS				
Wheat Malt	1.7 - 5	2 - 6	5%	Even small additions can enhance head retention and foam. Used at 50 - 60% for wheat beers.
Golden Naked Oats® GNO®	10 - 20	12 - 24	6%	Huskless oat crystal malt. Exotic ingredient for subtle nutty difference.
NEW Malted Oats	1.7 - 3.4	2 - 4	7%	Malted Oats impart a great silky smoothness and body to beers. Particularly good in darker beers.
Red Rye Crystal	200 - 260	237 - 310	4%	Seasonal autumn flavour – sweet and malty with warm bread-crust flavours. Gives a great red colour to beer.
NEW Malted Rye	1.7 - 5	2 - 6	7%	Contributes a spice rye flavour to beers. Malted Rye can add a unique flavour to beers also adding fullness, flavour and mouth feel. Great used in conjunction with Red Rye Crystal. Also great used in hoppy beer styles as well as tradition rye beers.
Dextrin Malt	1.0 - 1.3	1.3 - 1.6	7%	This malt increases foam, improves head retention and adds mouth feel to the beer without adding flavour or colour.
